# Nurturing New Life

*Did you know Burlington/Mebane Pediatrics offers in house Lactation Services?*

International Board Certified Lactation Consultants function and contribute as members of the maternal-child health team. They provide care in a variety of settings, while making appropriate referrals to other health professionals and community support resources. Working together with families, policymakers, and society, IBCLCs provide expert breastfeeding and lactation care, promote changes that support breastfeeding and help reduce the risks of not breastfeeding.
