You may repeat the dose every 4 hours while symptoms last

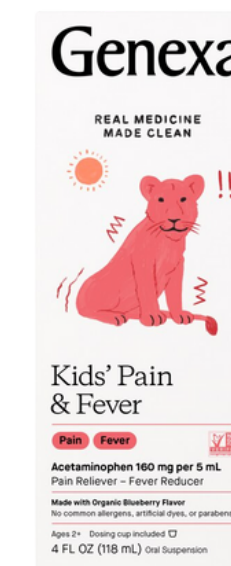

Do **NOT** give more than 5 doses in 24 hours

Do **NOT** use with any other product containing acetaminophen

Burlington Pediatrics  
Mebane Pediatrics

By your side for a healthy future

- What you can do**
- Always read and follow the medicine label.
  - Find the dose for your child's **current weight**. If you are not sure of your child's weight, use age. As children grow, their doses change over time.
  - Use only the dosing device that came with the medicine (syringe or dosing cup).
  - Wait the correct amount of time between doses. If you give another dose too soon, it could harm your child.
