NORTH CAROLINA STATE LAW:

In the event that North Carolina Law requires us to give more protection to your health information than stated in this notice or required by Federal Law, we will give that additional protection to your health information. For example, we will comply with additional state law confidentiality protections relating to communicable diseases, such as HIV and AIDS. We will also comply with additional state law confidentiality protections relating to treatment for mental health and drug or alcohol abuse. Those laws generally require that we obtain your written consent before we disclose information related to your mental health, developmental disabilities or substance abuse services, subject to certain exceptions permitted by law, such as disclosure to other facilities or professionals when necessary to coordinate your care or treatment or to a health care provider in an emergency. Also, state law permits a hospice, home health, ambulatory surgery or outpatient cardiac rehabilitation patient to object in writing to having state licensing inspectors review their health information during a licensure survey, and we will comply with such written objection. If you apply for and receive substance abuse services from us, federal law generally requires that we obtain your written consent before we may disclose information that would identify you as a substance abuser or a patient for substance abuse services. There are exceptions to this general requirement. For instance, we may disclose information to our workforce as needed to coordinate your care, to agencies or individuals that help us carry out our responsibilities in serving you, and to health care providers in an emergency.
